WHAT A RESEARCH ASSOCIATE DOES

- You will be trained to become an Executive Search Consultant;
- You will be trained to develop contact with mid-to-top level executives
- You will be trained to brief executives the details of the positions including but not limited to: hiring background, company introduction, organizational chart, reporting line, competitor study, industry overview and more;
- You will be trained to understand information regarding their work experiences, personal strength and weakness, career development goals, expectations and more;
- You will be trained to conduct industry talent mapping for your client and identify the "best available candidate" for your client.
- You will be given an insight to the hiring process and the recruitment industry.

WHAT WE LOOK FOR

We look for individuals fluent in both English and Mandarin;
We look for individuals with a Bachelor's Degree or above;
We look for individuals preferably with some working experience, part-time or full-time;
We look for mature, passionate, ambitious, communicative, and self-motivated individuals;
We look for strong team-workers to join our family.
